#### Line 510 - Service Quality Standards & Consumer Protection Rules Compliance:

#### Consumer Protection

#### Voice and Broadband

Hardy Telecommunications (Hardy) complies with the requirements of 47CFR Part 64 Subpart U, Customer Proprietary Network Information and the Federal Trade Commission Red Flag Rules to prevent identity threat. A manual for each of those programs is in place and is part of the employees' handbook. Employee and Board of Directors training is conducted annually and new hires are instructed on the programs as required by their job functions.

#### Service Quality Standards

#### Voice

The Company complies with the service quality standards and consumer protection rules set forth by the West Virginia Public Service Commission, and within its rules and regulations as it relates to Service Quality Standards and Consumer Protection Rules. Hardy is committed to providing the highest quality service to its customers.

#### Broadband

Hardy follows the service standards noted in NECA Tariff #5 and is committed to provide the highest quality service to its broadband customers.

#### Emergency Operations Functionality & Capability

The Company prides itself on updating and maintaining all of its plant and equipment to prevent outages before they happen. If outages do occur, the Company has a 24-hour/7 days-a-week on call staff and alarm reporting systems in place that send the necessary notifications to the 24-hour/7 days-a-week personnel monitoring these systems. The Company certifies that it follows best practices that are designed to allow them to remain functional in an emergency situation through the use of back-up power to ensure functionality.

Absent catastrophic failure of the network or elements of it, the Company has the capability to engage in some re-routing of traffic based on what facilities are damaged. While the Company has engineered its network based on accepted industry engineering practices, changing call routing may, to some extent, permit the Company to manage traffic patterns throughout its network during emergency situations.

The Company performs exercises to test disaster preparedness on each site's back-up power systems and they are tested weekly. Major transport facilities are also tested periodically to ensure failover reliability.

The Company provides the following information regarding is central office back-up battery and generator capability during electricity failures within its operating areas. The Company has deployed battery back-up power in its central office that will produce an estimated twenty (20) hours of back-up power for the Company's central office. The initiation of the Company's battery back-up capability is triggered instantaneously of the network identifying the existence of a loss of power.

The Company also has a back-up natural gas generator that is available at its central office should it be necessary. The generator would provide 152 hours of back-up power capability. Since the availability of fuel at the location is not an issue, the generator would provide sufficient power to operate even longer absent some unforeseen breakdown of it. Based on current contingency preparation plans, the Company estimates that the necessary generator-provided back-up power capability can be deployed and functioning within a minute of the identification of its need, well within the time frame of the estimated battery power back-up capability possessed by the Company. In addition, the Company has two portable generators that can be moved to the necessary site(s).

#### Voice Service Rate Comparability

As evidenced by the data provided in line 700 of this Form 481, the Company's voice service pricing is no more than 2 standard deviations above the national average urban rate (\$46.96) as announced by the Wireline Competition Bureau on March 20, 2014 (DA 14-384).

### Lifeline Certification, Verification, and Confirmation for Determining Initial and Continuing Eligibility of Consumers for USF Supported Lifeline Services.

#### General Assertion / Certification:

The Company has policies and procedures in place to ensure that its Lifeline subscribers are eligible to receive Lifeline services. The Company has instituted certification and verification procedures in company with Section 54.416 off the rules of the Federal Communications Commission (the "FCC"). Specifically, the Company refers Any and all consumers who request USF supported services from Hardy Telecommunications to the West Virginia Department of Health and Human Resources for proper confirmation and documentation of eligibility. Hardy Telecommunications proceeds with instituting such services after proper documentation of eligibility from the DHHR is received from the consumer.

In addition, as required by Section 54.410 of the FCC's rules, the Company obtains a valid certification form for each subscriber for whom the Company will be seeking Lifeline reimbursement. A copy of the Company's "Annual Lifeline Certification and Verification" form has been attached to the Company's submission in response to the May 1, 2012 "Commission Order" in the above referenced proceeding.

Based on the foregoing, my knowledge, information and belief, I hereby certify that the Company has policies and procedures in place to ensure that its Lifeline subscribers are eligible to receive Lifeline services, that the Company is in compliance with all federal Lifeline certification procedures, and that the Company has obtained a valid certification form for each subscriber for whom the carrier seeks Lifeline reimbursement.

Scott Sherman, General Manager and CEO of Hardy Telecommunications, Inc. and its Operating Companies

- A subscriber may elect at the time of subscription or later to Lifeline Assistance to receive toll limitation as part of Lifeline Assistance. "Toll limitation" is a service that allows a subscriber to elect not to allow the completion of outgoing toll calls from the subscriber's residence.
- Lifeline Assistance will not be disconnected for non-payment of toll charges, unless the Company first obtains a waiver from the Commission that the Company would otherwise incur substantial costs, that the Company offers toll limitation without charge, and that telephone subscribership among low-income subscribers in the Company's service area is greater than or equal to the national subscribership rate for lowincome consumers. For purposes of this paragraph, a "low-income consumer" is one with an income below the poverty level for a family of four residing in West Virginia. The Company shall follow all applicable notice provisions as established, from time to time, by the Commission, as part of using a waiver, if granted. The Company may apply for waivers as necessary.
- The Company may not collect a service deposit in order to initiate Lifeline 5) Assistance if the qualifying low-income subscriber voluntarily elects toll limitation from the Company.
- Eligibility for Lifeline service shall be subject to initial and continuing 6) verification by the local WV Department of Health and Human Resources.

S

Lifeline Assistance provides a discount to the subscriber's monthly local telephone service. The discount is only available for one telephony service per household. The flat-rate discount available per month is \$9.25.
